

Prestige Metal

A FAMOUS SIGNATURE

«With a strong commitment to aesthetics, choice of materials and finishes, and right down to the smallest details, Prestige Metal is a guarantee of satisfaction for the most demanding customers. Prestige Metal's designers, craftsmen and technicians form a close-knit team. Every day, they combine their knowledge and talents to conceive, design and manufacture staircase components of impeccable quality.»

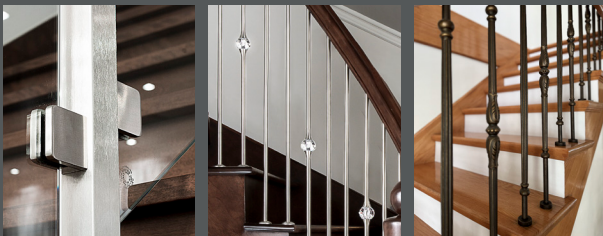

Prestige Metal is a company specializing in the design and manufacturing of stringers, stair railings, posts, balusters and interior stairway accessories. Firmly focused on innovation and technology mastery, its staircase creations and collections have propelled it to the rank of North American leader and supplier of choice.

PRESTIGE METAL SETS THE TRENDS

QUALITY AND DESIGN

Prestige Metal focuses on the creation of exclusive and original products. Incorporating crystal and wood into stainless steel balusters is just one small example of what Prestige Metal can do to impart a unique style to your decor.

PRODUCT VARIETY AND DISTINCTION

Prestige Metal's strength lies in its talent to combine materials such as steel, iron stainless steel, wood and crystal. This explains why Prestige metal is renowned for its ability to design and manufacture **steel stringers, custom railings, balusters and accessories** in a wide variety of styles.

THE PURSUIT OF PERFECTION IN BOTH PRODUCTION AND SERVICE

This motto applies to every phase of design and production, including Prestige Metal's customer service. Each and every product that leaves the Prestige Metal factory reflects our pursuit of perfection.

@website

Over the years, we have been developing unique colors and finishes that stand out for their quality and durability. Please refer to the various chapters to determine the available colors for each product.

TEXTURED, NON-TEXTURED, METALLIC, AND PAINTS FOR SPIRAL STAIRCASE

INTERIOR

NT-ACV-BU-CU-GU-MU-NU-CM-MR-CBE-GE-NE

High intensity baked powder paint. It covers uniformly and hides traces of welding and sanding. Durable, scratch-resistant finish.

EXTERIOR

NUX

Exterior paint is only applicable to certain stainless steel products. Only our railing posts and their associated accessories are available in this finish.

PATINA

STANDARD

BPO-NPA-NPC-NPO

A baked-on paint forms the base coat. This application is followed by a hand-made color patina using an irregular brush movement and covering approximately 40% of the surface.

VENITIAN

AVE-BVE-OVE-BA-BE-GA

A baked-on paint forms the base coat. This application is followed by a hand-made color patination by means of an irregular brush movement applied to the edges, ornaments and other decorative elements of the product.

RUSTIC

AR-CR-OR

We apply our colors according to a hand-crafted patina method using a traditional wiping technique with an irregular motion against a baked-on paint layer. This artisanal process offers a natural variation from one baluster to the next for an authentic effect.

MEDIEVAL BRONZE

BM

A baked-on paint forms the base layer. This application is followed by a hand-applied color glazing, using irregular brush strokes, covering 100% of the product. The glaze is applied layer by layer, using three different colors, followed by additional hand-applied color patination on the edges, ornaments, and other details.

OTHER

STAINLESS STEEL

SS

Stainless steel for indoor use.

SATIN NICKEL

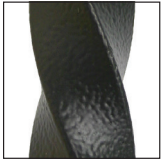

NS

Satin Nickel finish for indoor use.
